**STRETCH YOUR BUDGET.
COMPLETE YOUR FLEET.**

North Carolina State Contract

Construction Equipment #NC2210A
Grounds Maintenance Equipment #NC2210B

Take advantage of the State Contract.

The NC 2210A and NC 2210B State Contracts already include the best pricing available in North Carolina. No more time consuming paperwork shuffle. Just a single contract for all your purchasing needs.

Save with cooperative purchasing.

Unable to leverage the state contract? Make your purchases through one of the buying cooperatives. It's free to become a member and gain access to low, negotiated contract pricing. All without having to develop a bid yourself.

Get what you need. Pay as you go.

As budgets shrink, and workloads increase, our low-cost, low-risk leasing options will help you build your equipment fleet. Municipal Leasing offers ownership, spreads costs over several years, and creates flexibility when money is available in your operating budget but not in the capital budget. Our Operating Lease helps you plan to temporarily expand your fleet for specific needs with terms from 24 – 60 months.

Ag Contract #110719-JDC
Turf Contract #062117-DAC

Ag & Turf Contract #611-20

Ag & Turf Contract #GR01-20

Have a Trade-In?

Quality Equipment can evaluate your trade-in and it may qualify toward your purchase price.
